DATE

7/16/2026

1. Introduction & Understanding Your Needs

A tailored proposal for your project.

Executive Summary

Buggy specializes in empowering the restaurant industry with tailored digital solutions. We propose developing a modern online presence for your restaurant, enabling customers to easily interact with your brand and streamlining your operational efficiency within your specified budget and timeline.

Challenges We Understand

Clarifications Needed (Discovery Phase)

Your Goals

Immediate: Validate the core experience

Short-term: Improve adoption and workflow

Long-term: Scale the platform sustainably

Expected Business Outcomes

2. Project Overview & Scope of Work

We will deliver a practical solution tailored to your goals.

Key Features

Architecture Approach

A pragmatic modular architecture tailored to your scope.

Scalability & Infrastructure

The solution is designed to scale with future growth.

Recommended Tech Stack

The recommended stack fits the project scope and delivery needs.

Third-Party Integrations

Non-Functional Requirements

Scope of Work

Phase	Description	Duration
-------	-------------	----------

Future Enhancements

3. Timeline & Budget

Estimated total duration: **4-6 weeks**, targeting completion by **1 - 3 months**.

Milestones

Milestone	Target Date
-----------	-------------

Project Deliverables

Budget Breakdown

Phase / Discipline	Percentage	Estimated Cost
Total Estimated Cost	100%	\$5,000 - \$10,000

4. Project Team & Delivery Approach

Based on the project scope and complexity, we recommend the following team composition to ensure timely delivery, high quality, and long-term maintainability.

Why This Team Structure?

Delivery Philosophy

A phased delivery approach with clear milestones.

6. Next Steps

We can begin with discovery and a kickoff.
